A Creature Attacked the Home of OHSU CEO

**lib.edist.ro**

At its heart  
Mass COVID spread is not a “mismanaged” disaster.  
It has been shaped over time  
to slaughter those who are unprofitable for most to all “work”:  
Disabled people.

Initially it was primarily murdering Black and Indigenous disabled people  
And it still is  
But the anti-Black and anti-Indigenous ableism set a precedent  
to establish a “normal” where COVID unevenly punctures all disabled people  
at best  
isolating and warehousing them from the public  
while tending to  
murder them.  
A status quo which spells death for disabled people.

Just like the last 500 years  
With capitalism seeking to have a society of only those “abled”  
to work  
where ableism’s violence is carrying out to achieve this nightmare in its varied forms.

And it is getting more brutal.

Fascism escalates  
Cops are killing more people  
Transphobia is heightening again –  
a double genocide for white disabled trans people  
a triple genocide for Black, Indigenous, and other racialized disabled trans people.  
Bodily autonomy is being restricted  
all while cost of living grows.

And the state-sanctioned genocide is expanding  
by removing the mask mandate in the already white  
supremacist and ableist medical industrial complex  
solidifying medical facilities as sites of massacre, as part of the  
fascism's escalation.

Phone calls, letters, symbolic protests  
on their own  
Is proving insufficient when it comes to fighting fascism on oc-  
cupied Palestinian territory  
Had not stopped Pinochet from executing revolutionaries and  
advancing colonization in Willimapu  
Nor is it stopping the Turkish and Iranian state from slaying  
Kurds & dissidents broadly  
As fascism only breaks in the fury of generalized rebellion.

So an animal attacked the house belonging to the CEO of "Ore-  
gon's" largest hospital—OHSU.

Spray paint  
Red to signify the martyrs lost to this ableist genocide fueled by  
COVID spread  
smeared this house with symbolism of anarchy  
and parking assistance mirrors around the property were  
smothered with red.  
all done in the darkness around spring's beginning.

The name of this CEO is John G. Hunter.  
His address is 2541 SW Montgomery Dr, Portland Oregon.  
One of his emails is hunterj@ohsu.edu  
Follow up this action however you can  
as everywhere is a battlefield where ableism can be fought.

The animal has these final words to say:

“Fuck anti-maskers, Fuck those who eat at restaurants or drink at bars or do stuff that guarantee a COVID infection, Fuck this “normal” of massacres being met with complicity, Fuck white supremacy, Fuck anti-Blackness, Fuck anti-Indigeneity, Fuck all racism, Fuck 12, Fuck the prisons, Fuck colonialism, Fuck the evictions and sweeps, Fuck transphobia, Fuck (trans)misogyny, Fuck patriarchy, Fuck youth oppression, Fuck work, Fuck all industry especially the restaurant and real estate and airline and medical and tourism and music industry, Fuck capitalism, all have the blood of disabled people on their hands!”
